Computer Science undergraduate (B.Tech 2025–2029) with four publicly deployed web projects and 290+ solved data-structures and algorithms problems on LeetCode. Strong fundamentals in SQL, JavaScript, C and Java, with every project shipped live on GitHub Pages. Seeking a software or web development internship.

PROJECTS

Attendance Survival Calculator | MySQL, JavaScript

[Live](#) | [Source](#)

The 75% attendance rule solved with algebra, implemented in two languages.

- Derived the attendance inequalities into closed-form integer formulas: safe classes left to skip and the exact number of consecutive classes needed to recover above 75%.
- Implemented the math twice — in pure SQL (aggregates, GROUP BY, CASE verdicts, window functions for streak detection) and as an instant web calculator with an animated progress ring.

Morse Code Translator | JavaScript, Web Audio API

[Live](#) | [Source](#)

- Two-way text-to-Morse translator that audibly beeps its output using the Web Audio API, with dot, dash and gap durations timed to the international standard ratios.

Personal Portfolio Website | HTML, CSS, JavaScript

[Live](#)

- Hand-coded responsive site with IntersectionObserver scroll animations, prefers-reduced-motion support, and progressive enhancement so all content renders even without JavaScript.

To-Do List App | JavaScript, localStorage

[Live](#) | [Source](#)

- Responsive task manager with persistent localStorage state, dark mode and smooth animations.

PROBLEM SOLVING

- **290+ problems solved on LeetCode** — arrays, strings, hash tables, two pointers, binary search, linked lists, stacks, queues, heaps, trees, graphs, recursion; solved as a daily practice routine.

EDUCATION

Bachelor of Technology, Computer Science & Engineering

2025 to 2029

GLA University, Mathura, India

- Coursework: Database Management Systems, Data Structures, Object-Oriented Programming (Java), Discrete Mathematics, Python & NumPy.

Class XII, CBSE — 73%

2025

St. Mary's Inter College, Etawah, India

Class X, CBSE — 83%

2023

St. Mary's Inter College, Etawah, India

TECHNICAL SKILLS

- **Languages:** C, Java, JavaScript (ES6+), SQL, Python (basics)
- **Web:** HTML5, CSS3 (Flexbox, Grid, animations), DOM manipulation, Fetch API, responsive design
- **Databases:** MySQL, Oracle SQL — joins, aggregation, constraints, keys, schema design
- **Tools & Platforms:** Git, GitHub, GitHub Pages, VS Code, MySQL Workbench
